<p>2012 video game</p>

<p>Microsoft Mahjong (formerly Mahjong Titans, Shanghai Solitaire and Taip) Tj T* BT /

rosoft. The version titled Mahjong Titans was developed by Oberon Games and inclu
ded in Windows Vista[4] and #127936; Windows 7 (except Starter and Home Basic) Tj T*

ws #127936; Vista, and includes features such as tile set and background choic
es. (In Windows Vista builds 5219 up to 5259, the #127936; game was known as S) Tj T*

one version, developed #127936; by Arkadium[2] and published by Microsoft Stud
ios,[3] can be downloaded from the Windows Store free of charge and played witho
ut #127936; download on the web.[6][3]</p>

<p>An older version of the game was known as Taipei and was bundled in Mic
rosoft Entertainment Pack #127936; 1 and Best of Microsoft Entertainment Pack.

[7][8] That version included 32,767 possible configurations.[9]</p>

<p>Features [edit]</p>

<p>The player has a choice #127936; of six tile layouts[10] - Cat, Turtl

e, Crab, Dragon, Fortress and Spider, each a stylized portrayal of the respectiv

e object #127936; or animal. The background image can be chosen from five diff
erent options and there are four tile sets, including traditional #127936; Mah

jong tiles, variations with fuller coloring or larger print, and an alternative

pastel tile set with an entirely different picture #127936; theme.</p>

<p>Games are not entirely random. There is always at least one pair within

five tiles of the topmost five tiles #127936; in the turtle layout and often

two pairs. The algorithm for tile organization positions tiles such that they ca

n mostly #127936; be paired on the same level, or otherwise a matching tile is

available in an accessible position one level down. #127936; It does not chec

k to ensure that the matching tile is not positioned beneath its partner. Since

every tile has #127936; 3 partners this is not enough, by itself, to prove the

game is impossible to solve.</p>

<p>The newer version of Microsoft #127936; Mahjong has numerous further

layouts, improved graphics and sound, Internet features such as a set of daily c

hallenges that reward #127936; the user with "badges" when completed

, and Xbox Live integration.</p>
