

dicas de apostas esportivas bet365

Sure betting turns gambling into a solid investment method. Many users regularly make a profit of 10-20% per month, £ each and every month. Even beginners.

So, What is SureBets?

Sure bets (betting arbitrage) is a mathematically calculated arbitrage situation that allows placing bets on all the opposing outcomes of the competition with different bookmakers. Therefore, sports betting turns into an investment method with more than a 10% yield of the amount invested on a monthly basis. You can say goodbye to unreliable profits and hello to arbitrage betting.

Mathematically arbitrage occurs when there are a set of odds, which represent all mutually exclusive outcomes that cover all state space possibilities (i.e. all outcomes) of an event, whose implied probabilities add up to less than 1. In the bettors' slang, an arbitrage is often referred to as an arb; people who use arbitrage are called arbers.

Arbitrage betting is nothing to do with gambling despite what the word betting would suggest. Surebets make you a profit, no matter the outcome.

The surebets finder scans more than 100 bookies and 30 sports. The software finds and calculates surebets. All you have to do is go to the bookmaker, place your stake and make a profit!

Types of Arbitrage betting

Live bets

Live surebets represent bets on in-play events, which you can bet on as a game goes on. As the odds are changing fast, Live has certain pros and cons:

Pros: a hundred times more surebets, ten times fewer bookmaker sanctions, way faster bankroll return.

Cons: a hundred times more surebets, ten times fewer bookmaker sanctions, way faster bankroll return. Cons: fast odds change, so newbies may find it hard to catch up with the speed.

Live betting or in-play betting is when a player bets in real-time. In this case, a bettor has the chance to place bets that will be finalized in a short period of time. The wide and fast odds fluctuation during live betting can allow for big surebet profits.

Prematch bets

Prematch surebets are bets on future events. Newbies are advised to start from this arbitrage betting type as it's much easier to work with.

Pros: slow odds change, a high number of future events, and, consequently, lots of surebets.

Cons: slow odds change, a high number of future events, and, consequently,
