

pix sporting bet

<p>Moneyline betting is where you pick the winner of an event or game. Negative odds indicate the favorite, and positive odds indicate the underdog. The difference between the odds of the two teams is the vig. The closer the odds are to each other, the more competitive the matchup is. Of course, the odds are not always accurate. Sportsbooks often adjust the odds based on the amount of money being bet on each side. In the case of the Sharks (-230) vs. the Oilers (+230), the odds are telling us that it would be necessary for you to bet \$230 on the Sharks to win \$100. If you bet \$100 on the Oilers, you would win \$230. What does the -229 mean in hockey betting? / American Gambler chameriangamblear : what comdores/th e-2 30 ummes</p>
