poker cena

```
<p&gt;A case card in poker is the last card of a certain rank remaining in th
e deck. This</p&gt;
<p&gt; means that 3, £ the other three cards of that rank have either been de
alt or exposed at some</p&gt;
<p&gt; point earlier in the hand.&lt;/p&gt;
<p&gt;For 3, £ example, imagine we hold an Ace on a AAx flop in&lt;/p&gt;
<p&gt; Hold em. There is only one ace left in the 3, £ deck that can give us
quads, the case</p&qt;
<p&gt; Ace.&lt;/p&gt;
<p&gt;In this guide we II learn the following -&lt;/p&gt;
<p&gt;What Does it Mean to 3, £ Draw to a Case Card&lt;/p&gt;
<p&qt; in Poker?&lt;/p&qt;
<p&gt;If we are drawing to a case card it essentially means that we only 3, £
have one</p&gt;
<p&gt; out left in the deck that can complete our draw. Drawing to case cards
is a bad thing</p&gt;
<p&gt; 3, £ because it means we are going to miss in the vast majority of cas
es. A common example</p&gt;
<p&gt; is having a 3, £ dominated three of a kind and needing to hit the last
remaining card of a</p&gt;
<p&gt; certain rank to make quads 3, £ and win the pot.&lt;/p&gt;
<p&gt;Will we Always Know if We are Drawing to&lt;/p&gt;
<p&gt; the Case Card?&lt;/p&gt;
<p&gt;Sometimes we might think we have 3, £ two outs to improve (for example ) Tj T
s out that another</p&gt;
<p&gt; player folded one of our outs earlier on in the hand. We are technical
ly drawing 3, £ to the</p&gt;
<p&qt; case ace but have no way of knowing there aren t still two aces in the
deck. In&It;/p&qt;
<p&gt; televised 3, £ poker, the commentators may have seen that the ace was
folded earlier in the</p&gt;
<p&gt; hand and correctly realise that a 3, £ player is drawing to the case a
ce even though the</p&gt;
<p&gt; player himself has no idea.&lt;/p&gt;
<p&gt;What Does it Mean to Catch 3, £ the Case Ace
                                                             in</p&gt;
<p&gt; Poker?&lt;/p&gt;
<p&gt;Catching the case Ace means we hit the last available ace in the deck.
For</p&gt;
<p&gt; example, 3, £ we hold three of a kind aces in Hold em but are currently
y losing to a full</p&gt;
<p&gt; house. If we hit 3, £ the last remaining ace in the deck to make guads
this is known as</p&qt;
<p&gt; catching the case ace .&lt;/p&gt;
<p&gt;How Likely is 3, £ it to Catch a Case Card?&lt;/p&gt;
<p&gt;Catching a case card is&lt;/p&gt;
<p&gt; very unlikely in Hold em. From flop to turn 2.1% of 3, £ the time. Fro
