

poker edge

It is always the best five cards that make a five card poker hand that determines the inner loser or split. Holdem is played with seven cards, and the two cards that are not part of the five card hand count for absolutely nothing in determining if a pot is lost or split. What is the "Top Five Cards" rule and how does it apply to split pot? It has factors such as the number of players in a hand, and where your seating position relative to the dealer. What is the algorithm for Texas hold'em? - Quora

Quora question: What is the algorithm for Texas hold'em? It is an algorithm that has factors such as a number of players, effective stack sizes, pot odds, etc.
