<p>What is a Cash Game?</p>

<p>Cash games are one of the most popular poker formats you can play</p>

>

<p> in Governor of &#127774; Poker 3. They are poker games played with no

time limit by putting your</p>

<p> own buy-in at stake. Unlike Tournaments, &#127774; you are able to en

ter and leave the game at</p>

<p> any time along with your current table chips. Also, if &#127774; you

run out of chips in the</p>

<p> middle of a game, you can rebuy chips at the start of each &#127774;

new round.</p>

<p>What is the</p>

<p> Rake?</p>

<p>The Rake represents a very small percentage of chips that are taken out

of each</p>

<p> Cash &#127774; Game pot for the house. Note: this applies to Cash Gam

es only, and does not</p>

<p> include tournaments</p>

<p>How many players are &#127774; allowed in Cash Games?</p>

<p>You can play on either</p>

<p> 5-player or 8-player cash game tables.</p>

<p>Where can I find Cash Games?</p>

<p>Players are &#127774; able to</p>

<p> join Cash Games in 2 different ways:</p>

<p>Automatically - By tapping/clicking on the PLAY</p>

<p> CASH GAME button that is &#127774; displayed in the lower part of th

e screen of the WorldMap you</p>

<p> will be automatically assigned to a specific Cash &#127774; Game base

d on your current</p>

<p> level.</p>

<p>Manually - By browsing the different map areas and clicking/tapping the

Cash</p>

<p> Game you want &#127774; to join. Every Cash Game has distinct buy-ins

and blinds, so choose the</p>

<p> game that suits you!</p>

<p>Why do some players &#127774; have different buy-ins at the same</p>

>

<p> saloon?</p>

<p>Every Cash Game player can choose a different minimum and maximum buy-i

n in</p>

<p> order &#127774; to take part on Cash Game tables. Keep in mind that t

he minimum/maximum buy-in</p>

<p> depends on each saloon and on &#127774; the number of chips that you

own.</p>
