<p>How to Upgrade Robots and Items</p>

<p>The upgrade progress for a robot or an 🍌 item has four upgradi

ng components. To each component, one can upgrade. </p>

<p>Everything, whether it be a robot or an item, 🍌 features four

modes: Common, Advanced, Rare, and Unique of which you can upgrade from level 1

to level 12. To 🍌 level your robots and items, you need:</p>

<p>Parts: the key ingredients.</p>

<p>Resources: gold and silver depending on the component. </p>

<p>Workshop: Certain durations 🍌 are assigned on the upgrades dep

ending on the tier. These durations will grow as you move toward higher levels.&

lt;/p>

<p>Morale: you 🍌 earn them as loot boxes in battles and from the

Upgrade Tab of the Battle Rewards section. The necessary ingredients 🍌

for you can amount to this formula depending on the item you are upgrading:</

p>

<p>(Parts) = (Level + 2) * 3 🍌 if it is a robot or (Level + 1) *

2 if an item</p>
