

# zebet nigeria login

&quot;That's poker&quot; is a colloquial expression often used to convey acceptance of a situation that is out of one's control. It's derived from the game of poker, where luck and chance play a significant role in the outcome. Essentially, it means &quot;that's just how things are&quot; or &quot;That's life.&quot; What does that mean? It proceeds clockwise as each player in turn either match (or &quot;call&quot;) the maximum previous bet, or fold, losing the amount bet so far and all further involvement in the hand.
